

Dress Code Policy

Nexus Technologies, Inc.
Effective Date: January 1, 2026

1. Purpose

This Dress Code Policy establishes appearance standards for all Nexus Technologies employees to maintain a professional, inclusive workplace that reflects our brand when interacting with clients, partners, and colleagues.

2. Business Casual Standard

Unless otherwise noted for client-facing roles or special events, employees should follow business casual attire Monday through Friday.

- Acceptable: collared shirts, blouses, slacks, khakis, modest dresses, closed-toe shoes, and company-branded apparel on designated spirit days.
- Not acceptable: ripped clothing, graphic tees with offensive content, flip-flops, beachwear, or clothing with political slogans in client areas.
- Remote employees must follow business casual standards for video calls with external parties.

3. Client Sites and Events

When visiting client sites, employees must comply with the client dress code if it is stricter than Nexus standards. For company events labeled "business formal," suits or equivalent professional attire are required.

4. Accommodations

Nexus Technologies provides reasonable accommodations for dress code requirements related to disability, religion, or gender expression. Contact HR to request an accommodation review.

5. Enforcement

Managers address dress code concerns privately and respectfully. Repeated violations may result in corrective action per the Code of Conduct.
